

SharePoint Consulting: Collaboration & Data Reporting Made Easy.

Fact Sheet

Services

Microsoft Office SharePoint Server 2007/2010 is an integrated suite of server capabilities that can help improve organizational effectiveness by providing comprehensive content management and enterprise search, accelerating shared business processes, and facilitating information-sharing across boundaries for better business insight. Additionally, this collaboration and content management server provides IT professionals and developers with the platform and tools they need for server administration, application extensibility, and interoperability.

Extended Results provides a complete cycle of end-to-end consulting from planning to design to implementation of SharePoint Solutions. Our SharePoint consulting team can help you define and analyze your application requirements and guide you through the techniques of integrating your business requirements in a form of a corporate business portal designed using SharePoint Portal Server.

Backed with an extensive experience and product knowledge, we design your SharePoint solutions based on your unique business processes. Our consulting services can help you implement SharePoint by guiding you through all the potential SharePoint options to precisely meet YOUR business objectives and provide the internal collaboration your organization has been waiting for.

Customer Encore

"WE WERE EXHAUSTED BY SHAREPOINT VENDORS WHO COULDN'T THINK CREATIVELY, OR DELIVER. WE BROUGHT IN EXTENDED RESULTS AND WE LEARNED THINGS WE NEVER THOUGHT SHAREPOINT COULD DO. NOW OUR COMMUNICATION STRATEGY FINALLY MAPS TO OUR WORKFLOW, BRANDING, USER EXPERIENCE, AND FUNCTIONALITY – WE GET TO DO OUR JOB, NOT SPEND MOST OF OUR TIME DROWNING IN TECHNOLOGY."
